

PARKER

ENGINEERING AND MECHANICAL, INC.

Position: Wall Cap Installer / Spider Lift Operator

Parker Engineering and Mechanical, Inc. is a leading Multi Family & light commercial HVAC installation Company in Northeast Atlanta area seeking self-motivated and dedicated individuals for a Wall Cap Installation/Spider Lift Operator position. This position will require driving a large truck while towing a large trailer with a spider lift to various job sites, unloading the lift, operating the lift and installing wall caps then returning the lift at night.

Candidates should be comfortable towing and comfortable with operating a boom and / or spider lifts at heights from 20 feet up to 80 feet or more on occasion. Lift certification and bilingual language skills (English/Spanish) are a plus but are not required.

Job Tasks:

- Report to Parker main office to collect truck and trailer
- Travel to project site (typically within Atlanta area, but occasional travel may be required)
- Unload and operate lift to install exhaust vent wall caps on exterior of buildings
- Safely store the lift for the following day and/or return to Parker main office and complete required documentation.

All candidates must be able to pass a pre-employment drug screen and background check. Must be able to pass a DOT Medical Exam and comply with DOT regulations. Must have a valid class C driver's license and clear MVR.
