

ENGINEERING AND MECHANICAL, INC.

Lift Operator and Layouts \$20/Hr

There is up to a \$2 raise at your 90-day review, based on performance.

The application can be found under the “Now Hiring” tab!

Parker Engineering and Mechanical, Inc. is a leading multi-family and light commercial HVAC installation company in the northeast Atlanta area. We have jobsites all over the southeast United States.

We are seeking self-motivated and dedicated individuals.

Description:

This individual would be using a spider lift to install wall caps onto the outside of buildings that are under construction. Installing wall caps involves prepping the wall and drilling the wall cap into concrete. This person will be responsible for the maintenance of the spider lift. The spider lift is transported on a trailer, so they must be comfortable driving a truck with a trailer.

Layouts involve using a HILTI layouts system. An individual would use this machine in conjunction with a tablet to pinpoint where block-outs need to be prior to concrete being poured on a jobsite.

This individual may also transport shipping containers to new jobsites and from completed ones.

No experience is required, but the individual must be capable of learning the various aspects for this position.

Requirements:

- Must be willing to purchase own tools (individually or through the company)
- Must be comfortable with heights
- Must be comfortable driving a truck with trailer
- Must be able to learn new technologies

Benefits:

- Medical insurance for employees paid 50% by company, available for spouse and family
- Vision, Dental, Short-Term Disability, Long-Term Disability, Life and other insurances available
- 401K with company match
- 2 weeks paid vacation per year
- 7 Holidays per year
- Tool cost reimbursement and Tool Account

Job Type: Full-Time

Drug-Free Workplace
Equal Opportunity Employer
